Brinker**

Instructions to Purchasers.

WE are prepared to execute orders immediately after this Catalogue is issued, and it will be to the advantage of purchasers as well as to us, if they send in their orders at as early a date as possible. Do not delay ordering until such time as you wish to use the seeds.

PACKING. No charge for boxes, bags or barrels on vegetable seeds, bulbs or potatoes.

All Seed, both Vegetable and Flower, before we send them out, are tested as to vitality and to as great an extent as possible as to genuineness.

WARRANTY. We warrant that all Seeds sold by us shall prove to be as represented, to this extent, that should they prove otherwise, we will replace them, or send other seeds to the same value.

But we cannot guarantee the crop any further than the above offer, as there are so many causes over which we have no control, which operate unfavorably in the germination of seeds and maturity of the crop. Among the causes of failure may be mentioned unfavorable weather, which is one of the most important. The soil may be in proper condition when the seeds are planted, but the weather which follows may be cold and wet, which will cause the seeds to rot; or it may be hot and dry, which destroys the germ before it shows itself. The seeds may be, and are frequently, destroyed by vermin of various kinds. Such occurrences are beyond the power of man to prevent, and for them we cannot be responsible. We wish it understood, therefore, that while we exercise the greatest care to have all seeds pure and reliable, we do not give any warranty, expressed or implied, further than above stated. If the purchaser does not accept the seeds on these terms and conditions, they must be returned at once, and the money that has been paid for them will be refunded. Wishing every recipient of this list good crops and good prices for everything they raise in 1901, I remain,

Yours truly,

WM. BRINKER.

...FLORISTS' FLOWER SEEDS...

We devote equally as much care and attention to the department of florists' seeds as to vegetable seeds for market gardeners. Our stocks are grown for us by the best growers and specialists, both at home and abroad, and entire confidence can be placed in our strains herewith offered, as it has always been our policy to secure the very best obtainable, cost being a secondary consideration. We would specially recommend our strains of Aster, Calceolaria, Cineraria, Pansy, Petunia, Primula, Stocks, Verbena, Cyclamen, Cosmos, Mignonette and all such other seeds as are much in demand by florists.

All Flower Seeds are Tested for Vitality Before Being Sent Out.

ABUTILON.
